

ICOP In-Car Video Advantages

<ul style="list-style-type: none"> ■ Superior Product Quality 	<p>Rugged, purpose built, in-car video platform with proven reliability in nearly 9,000 installations. The result is significantly reduced total cost of ownership for the agency and minimal downtime over the life cycle of the fleet.</p>
<ul style="list-style-type: none"> ■ Superior MDT Solution 	<p>As MDTs (mobile data terminals) become pervasive in police fleets, DVR systems must seamlessly integrate without disrupting critical software and communications on the MDT. The ICOP 20/20 VISION provides a superior solution as a DVR that can be fully managed on an MDT while independently continuing video capture in the event of an MDT failure.</p>
<ul style="list-style-type: none"> ■ Superior Wireless Audio Transmission 	<p>The ICOP EXTREME Wireless Mic microphone provides transmission range in excess of 2,000 feet line of sight, equivalent of 2-3 times greater than competitive solutions.</p>
<ul style="list-style-type: none"> ■ LIVE Streaming 	<p>ICOP LIVE video streaming provides situational awareness to command staff not “on location”. The ICOP LIVE solution is a superior streaming solution, and is unique in allowing secure instant access from any Windows-based internet device. An extremely scalable solution, ICOP LIVE supports an unlimited number of users for access to the video stream without degrading video quality.</p>
<ul style="list-style-type: none"> ■ Highly Customizable 	<p>ICOP customization options meet the needs of any department:</p> <ul style="list-style-type: none"> ● Flexible Installations. ICOP systems can be installed virtually anywhere in the vehicle with a minimal footprint. Designed to fit in a vehicle's original radio 'DIN', the DVR has a small footprint that allows for provides flexible installation options virtually anywhere in the vehicle. ● Video Management Software Options. Many companies only offer a single video management solution, proving to be either not sophisticated enough or far too complicated for any given agency. ICOP offers both an enterprise level management tool for large agencies with complex networks, as well as a simplified video management package for less complex installations.
<ul style="list-style-type: none"> ■ Officer Safety 	<p>ICOP DVRs help ensure an officer’s safety in two ways:</p> <ul style="list-style-type: none"> ● First, in terms of equipment that won't harm officer (as a free falling projectile) in the event of a collision or crash ● Second, in terms of providing “silent witness” evidence when an officer may be unable to do so
<ul style="list-style-type: none"> ■ Best Wireless Uploads 	<p>ICOP wireless uploads achieve the fastest speeds in the industry, topping out at 70 Mbps, utilize the most secure WPA2-AES encryption and automatically resume interrupted uploads.</p>

ICOP In-Car Video Advantages

■ Tamperproof Video	ICOP uses a secure video codec (coder/decoder) which ensures the legitimacy of the video evidence and a Secure Chain of Custody. No video editing software tools exist that would allow modification of ICOP video. Once captured, video may not be deleted in the vehicle, ensuring an intact chain of custody. Protected video may also be exported to .avi and other unsecured formats for easy consumption by stakeholders.
■ Blazing Fast Startup	The purpose-built ICOP DVRs boast industry leading, extremely fast power up cycles. Upon ignition, ICOP DVRs are ready to capture evidentiary quality video in 30 seconds or less!
■ Operates in Extreme Temperature Conditions	Capture video in any environment, from desert heat to arctic cold. ICOP systems are deployed in some of the most unforgiving environments worldwide with proven reliability in extreme temperature conditions.
■ Ease of Use	ICOP DVR systems are easy to use and support a high degree of automation for departments looking to minimize officer interaction with their in-car video systems. Officers are able to get up to speed quickly and begin using the system with minimal training.
■ Quality of Video	High quality video translates into reliable evidence in court whether battling liability claims, exonerating officers or prosecuting offenders. The result is cost savings for the city as drawn out trials and frivolous lawsuits are minimized.
■ Superior Customer Support	ICOP Customer Support is second to none. Questions are always answered promptly and are never farmed out to overseas support staffs.
■ Frame-by-Frame Analysis of Video	ICOP video allows frame by frame advancement, to enable review of critical events. This helps determine without question that an officer has responded appropriately to a legitimate threat in a fraction of a second and removes the second-guessing often accompanying tragic events, like an officer-involved shooting. System provides courtroom quality visual evidence in every single split-second of a recording.
■ Value	The ICOP system is complete “out of the box”, including the following: <i>DVR, built-in AM/FM radio, solid state drive module, covert internal microphone, ICOP EXTREME Wireless Mic, Sony color camera, infrared b/w backseat camera, Garmin GPS receiver, siren detector</i> Some competitors systems often lead with a low cost, scaled down system but are missing key system components.
